Rescue Truck Funds Rapidly Soar Upward

Donations Have Only Started, Chairman Stearns Reports

Impressed by the potential value of a Red Cross rescue truck in the lakes region, where an inflow of vacationists and visitors presents a constant risk of accidents, residents of Antioch and nearby communities are enthusiastically giving their support to the fund being raised here for the purchase of such a truck.

James Stearns, chairman of the committee in charge of donations, reports that small sums have been coming almost hourly. While the amounts given have not, as a rule, been very large in any one instance, public endorsement of the drive appears to be general.

The plan of the Antioch Red Cross rescue squad to continue its policy of answering all emergency calls also appears to be meeting with much favor, particularly in nearby communities which face similar accident hazards.

Lake County Holsteins in "All American Herd"

Two Lake county Holstein breeders, Ravenglen Farms at Antioch, and Hawthorn Farms, Libertyville, have been honored by the selection of members of their herds for the 18th annual All-American Holstein herd by a committee of 17 eminent dairy cattle judges of United States and Canada. The awards have just been announced.

King Bessie Senator, herd sire at Ravenglen, owned by E. H. Ravenscroft, president of Abbott Laboratories, was chosen All-American two-year-old bull, the third successive year this animal has won the coveted All-American distinction. Another member of the Ravenscroft herd was given honorable mention.

At Hawthorn Farms, Libertyville, the honors went to Hawthorn Blue Eye Empress, chosen as the Reserve All-American heifer calf of the year. Three other members of the herd received honorable mention. Hawthorn Farms are owned by J. F. Cunco, president of the Cunco Press in Chicago.

Ninety-two animals were nominated for consideration, all of them winners at state, sectional or national dairy shows in United States, or Class A shows in Canada. Fifteen animals, making up a complete show herd with one entry in each class, were selected for the All-American herd, and the 15 second-choice animals are the reserve herd. Forty-six others were given honorable mention.

Big Farm Meet Will Be Held Here March 6

Hackelman, of U. of Ill., Will Address Farmers' Gathering in Antioch

March 6 has been set for Antioch's big farm meet when problems concerning the farmer's seed and soil fertility needs will be discussed at the Antioch Township High school.

The afternoon will be devoted entirely to a symposium on hybrid corn production. The latest facts concerning that subject will be brought forth under the capable Extension Crop specialist, Prof. J. C. Hackelman of the University of Illinois.

Commercial Exhibits

Commercial exhibits will be on display and a Shelled Corn show for Lake County farmers will be held. All farmers are urged to get a peck of shelled corn ready. It will be judged according to corn-market standards.

The evening program will be devoted to motion pictures, a talk by Prof. Hackelman, entertainment, and the awarding of prizes won at the corn show.

Hybrid seed growers, fertilizer dealers, and farmers who wish to exhibit their grain or small seed samples are asked to communicate with C. L. Kuhl, Vocational Agriculture instructor at Antioch High school, who is general chairman of the meeting.

Boat and Sport Show Will Open in Chicago

To sports lovers in the Antioch and nearby communities each year comes the perennial urge to plan for the out-of-door season. About that time another hardy, perennial—the National Boat and Sport show—appears on the scene. This year the famous exposition, playing its 11th straight annual run will be better, bigger and earlier than before. The new dates are February 3 to 11 inclusive, as announced by Hubbard H. Erickson, manager, include two Saturday and two Sunday, giving everyone an opportunity to get to Navy Pier several times if desired.

From the small exposition of boats in 1928, the show has expanded until today the entire length of the exhibition hall on the Pier is utilized and about 120 exhibitors will display their best brain children to interest and attract the sports-loving public. It is a show of action too, with amateur sports being participated in by hundreds of visitors and thousands more taking an eager interest in the demonstrations of skill.

The great out-of-doors states of Minnesota (including the Arrowhead association), Wisconsin, Michigan and Illinois, are arranging unusual exhibits at the Pier which will include the showing of much wild life—from bears and deer down to "birds of plumage" and rabbits. These states will have special days starting with Illinois Day, Sunday, February 4th. Governors and other officials of the state always visit the Pier.

Beautiful models wearing the latest costumes for swimming, fishing, hunting, skiing, archery and other sports will make personal appearances each day and evening of the show, and the Queen of the Great Lakes will be selected during the event from among the fair sex members of the Chicago area yachting clubs.

There will be fly and bait casting, rifle and pistol shooting and the newly popular rifle and skeet shooting, as well as golf ball driving and other sports.

The exhibit of boats has grown each year until this year more than 35 manufacturers will have the latest models ranging from giant cabin cruisers down to kayaks on display.

Federated Christian Group to Meet in Zion

The next meeting of the Older Young People's society, recently given the name of "Federated Christian Youth," will be held at the Methodist Church in Zion, on Monday evening, February 5.

Clarence Henry of North Prairie will be in charge of recreation for the evening.

The organization is steadily growing. Forty-two young people from all parts of Lake county attended the last tour. Everyone is welcome.

Antioch Dollar Days to be Held Friday, Saturday

Only Mystery of Season Announced by Rotnour Troupe

Their only mystery play of the season, "The Vulture," will be given by the J. B. Rotnour players Thursday evening on the stage of the Crystal theater.

Besides its "spooky" happenings, the production contains a number of comedy moments, said to be ably handled by Jimmy LeRoy.

Last Thursday evening's presentation, the farce, "His Temporary Wife," was one of the most amusing the troupe has given this season and drew an appreciative response.

Next week the troupe is to give "Scrambled Love," a comedy-drama. Some new faces will be seen in the cast, "J. B." promises, and there will also be vaudeville specialties.

He adds: "If you want to enjoy a rare treat in clean-cut theatrical entertainment, by a capable company, secure your free merchant tickets from Antioch business concerns listed in our advertisement elsewhere in this issue of the Antioch News."

Stamp Collectors May Bid on Seals Bearing Rockwell Kent Autograph

The Lake County Tuberculosis association is making the following announcement to stamp collectors in Lake county:

There is in the office of the Illinois Tuberculosis association an imperforate sheet of 1939 seals which has been autographed in the center by Rockwell Kent, the artist who designed the seal. One imperforate autographed sheet was prepared for each state association.

This collector's item, which has considerable value, is not to be kept by the Illinois Tuberculosis association, but is to be sold to the individual in Illinois who makes the highest bid for it. The person who eventually receives it will receive the sheet of seals in a black folder containing the gold corporate seal of the National Tuberculosis association.

Should the stamp collectors of Lake county be interested in making bids, and should one of the bids be the highest, 75% of the price paid will be given to the Lake County Tuberculosis association.

Bids for the sheet of seals will close April 1, 1940. The bids may be sent to the Lake County Tuberculosis association or to the office of the Illinois Tuberculosis association, Springfield, Ill.

The Lake County Tuberculosis association reports a receipt of \$977.61 from 976 of the Christmas seal reminders mailed this month. A favorable response from 6,854 Christmas seal letters yet unanswered would enable the association possibly to rank first in the state in seal sale, outside of Cook county, when the final count is reported on April 8. On January 15 Winnebago county ranked first with \$8,924.00. Lake county lacked \$596 of this amount.

The chest clinics maintained by the Lake county association are held at the tuberculosis sanatorium Wednesday and Friday from 8:30 to 11 A. M. with Dr. Peter as clinician. Appointments may be made at the office of the association, telephone Majestic 1805.

Diminishing Returns

Those who have to run their own businesses, and who try to earn a living therefrom, know all about the law of diminishing returns. But government is only gradually learning that the principle involved has its application to taxing measures, too. It is beginning to become plain that when "hidden taxes"—the ones concealed in the price of products—become too high, people buy less and the total yield may prove to be less than was the case when the rate was lower.

The New York Post, commenting on the cigarette tax in its home state, brings this point to the attention of its readers.

The pyramid of taxes on New Yorkers' cigarettes is serving one useful purpose," the Post philosophizes. "It is demonstrating, better than has any other tax in years, all the varieties of trouble that can be caused by imposing levies heavier than traffic can bear.

Retail dealers are losing customers by the droves. Purchasers of cigarettes are being annoyed and, in many cases, cutting down on their expenditures. Yields from the tax are much below expectations.

"Everybody is losing and the gain to the city and State treasuries seems likely to be scant. There may even be a loss.

"The State tax defeated itself. Economists call this 'the law of diminishing returns.'"

Going Places

They're getting together "down on the farm."

The get-together in question involves the fast-growing agricultural marketing cooperative movement—the most significant in the farm history of our time.

Already the movement has improved prices in many instances, broadened and stabilized markets, dealt with all manner of problems affecting agriculture, and served the consumer by helping assure him of a constant supply of first-class farm products at a fair price.

Those who have watched the movement have been little short of amazed by its achievements in a few brief years. And it is going places faster all the time.

A Lot of Counting

Counting at the rate of 150 a minute for 40 hours a week, beginning when America was discovered, it would take a man until 2603 A. D. to count \$20,500,000,000—the cost of relief in America since 1932.

Did It Speed Recovery?

In 1937 Congress enacted a law empowering a New Deal agency to fix minimum coal prices.

Since then the agency has spent approximately \$3,000,000 a year.

It has built up a payroll numbering some 1,400 persons.

It has taken 12,000,000 words of testimony as a basis for its price determinations.

It has examined two box cars full of exhibits of one kind or another.

And no prices are expected to be announced before April 15, 1940, with the practical certainty that any announcement will provoke a storm of disapproval and protest from many coal operators and probably consumers generally.

Did it speed recovery?

Forgotten Promise

From the Democratic national platform of June, 1932: "We advocate an immediate and drastic reduction of governmental expenditures . . . to accomplish a saving of not less than 25 per cent in the cost of Federal Government."

"Maintenance of the national credit by a Federal budget annually balanced. . . ."

From Senator Tydings (D.) of Maryland, on Nov. 23, 1939:

"We must begin now to approach the day when we spend less than we take in."

Where have we been in these seven and one-half years in the interim, and what is the reason for having to "begin now to approach" the start of that which was an "immediate" proposition in 1932?

Broke at Sixty-five

The majority of men who have money at 35 are stone broke at 65! Business failures, bad investments, illness and other unexpected catastrophes tell the tragic story!

The majority of these men could have enjoyed financially independent old ages, instead of having to depend on charity or the bounty of relatives—had they put aside money at the time when earning power was at its height, in some plan such as those offered by life insurance.

Only charity can help the indigent old whose savings have disappeared. We can witness these pitiful examples—and guide our own course accordingly.

G. O. P. Invites Pres. Roosevelt To Attend Two-Bit Banquet

Lincoln Day Banquet Far Cry from the President's \$100 Jackson Dinner

Folks—Attention, Please!

(Editor's note—before this issue of the Antioch News went to press, the following bulletin from Washington, D. C., arrived:

Washington — President Roosevelt isn't going to attend, but in a jesting mood he bought a couple of tickets today to a Republican Lincoln day banquet in Illinois.

Through a secretary, Stephen T. Early, he sent word that he hoped the dinner would be a success and that the speaker—Representative Plumley, Republican of Vermont—"will make the subject assigned to him—How to Keep a State from Going Haywire on the Presidential Year—crystal clear to all in attendance."

In inviting Mr. Roosevelt for the February 12 dinner, Bernard M. Long of Wheaton, Ill., took a cue from the Democrats, who asked senate and house Republican leaders to a Jackson day dinner here Jan. 8. The leaders sent regrets.

Mr. Roosevelt also sent regrets, but asked Early to enclose two 25 cent stamps in payment for two tickets. He wants to keep the latter for souvenirs.

Now go on: Inspired by the neighborly, non-partisan attitude of President Roosevelt in inviting several Republican leaders in Washington to the Jackson day \$100 banquet, a reciprocal invitation has been extended to the President to attend the Lincoln day 25c banquet at Merner fieldhouse in Naperville, Monday, Feb. 12, by Bernard M. Long, its chairman.

The invitation follows: Hon. Franklin D. Roosevelt, President of the United States, White House, Washington, D. C. Honorable Sir:

On Feb. 12, 1940, we the people of the Eleventh Congressional district of the State of Illinois are holding a non-partisan get-together sponsored by the DuPage county Republican Central committee. Due to your recent good-neighbor attitude toward some of our boys in Washington in extending to them an invitation to your Jackson day \$100 dinner, we are extending to you, the President of the United States of America, personally, an invitation to our Lincoln day banquet, a two-bit affair. We expect about 5,000 of our people to be present.

few weeks with his grandmother. Elmer Fleming, Burlington, was a Trevor caller Sunday.

Sunday callers at the Chas. Oetting home were Mr. and Mrs. L. Easer, son, Richard, and daughter, Winifred, Oak Park, Mr. and Mrs. Longton and children, Channel Lake.

Mrs. Mattie Copper received word of the birth of a daughter, "Frances Mary," Jan. 12, to Mr. and Mrs. Allen Copper, Chicago.

Mrs. Charles Oetting was pleasantly surprised Tuesday evening by twelve of her lady friends to help her celebrate her birthday anniversary. The evening was spent at 500, followed by lunch served by the guests.

Eight tables of cards were in play at the Social Center card party Saturday evening at the William Boersma home.

Mr. and Mrs. Harry Lubeno will entertain the party this Saturday evening at their home.

Walter Baethke, Antioch, called on his parents, Mr. and Mrs. A. J. Baethke, Monday afternoon.

Although the purpose of the Jackson day dinner was to raise funds for the Democratic campaign, the Lincoln day rally will bring together 5,000 voters and nationally known Republican speakers interested in reducing the national debt. Thus the sponsors of the Naperville rally believe their banquet is more symbolic of the original Jackson day dinner which was held to celebrate the wiping out of the national debt, and should be enjoyed by the President who some time ago expressed himself as favoring national economy.

The food at the Lincoln day banquet will be simple but hardly fare. Hon. Charles A. Plumley, veteran congressman of Norwich, Vt., will be main speaker of the evening. Congressional, state and county candidates will make short talks before the microphone. While the guests are enjoying their evening's repast in the big North Central college fieldhouse, the best musical talent in the 11th Congressional district will perform for the diners. All who plan on attending the rally are urged to purchase tickets from their precinct committeemen as soon as possible.

COUNTY SEAT NEWS

The possibility of removing street car tracks and installing a bus system between Waukegan and North Chicago is being considered. North Shore Line officials met with city officials of Waukegan and with those of North Chicago last week to discuss legalities involved.

Officers elected at the fifteenth annual Waukegan-North Chicago Real Estate board banquet include L. J. Yager, president; Oscar Soderquist, vice-president; Harry Lange, secretary-treasurer; L. Elmer Hulse and James W. Fulton, directors.

"An object loomed ahead and jarred my car," but he didn't know he had struck anyone until he put his car in the garage and found the right headlight torn off, the right fender dented, and the front license plate missing, John F. Gantor of Waukegan told police when he went back to the Fort Sheridan entrance on Route 42 to investigate. Louis Alvisi, Highwood laborer who was critically injured when struck by the automobile, was placed in the Fort Sheridan hospital. The missing license plate had been found lying beside him.

Fire believed to have been started from an overheated furnace in the basement caused damages amounting to \$20,000 to the First Christian church, Clayton and Utica streets, last Thursday night. Reports that the blaze was the work of the pyromaniac who has set 14 fires in the city since last September are discredited by Fire Chief Adolph Francke.

Veteran Prospector Strikes Pay Dirt

Maj. Graham C. Dugas, veteran prospector, examines samples of "pay rock" from his bonanza gold strike at Dahlonega, Ga. Wiscacres didn't believe there was gold in the Georgia uplands, but the major uncovered a vein of quartz two inches thick and assaying \$60,000 to the ton—comparable to the world-famed Comstock lode of Nevada. Right: Dugas points out the rich vein to a friend.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Dean of The Moody Bible Institute
of Chicago
(Released by Western Newspaper Union.)

Lesson for February 4

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

HOLDING LIFE SACRED

LESSON TEXT—Genesis 1:27-31; 1 Corinthians 6:19, 20; 11 Corinthians 6:16-17.
GOLDEN TEXT—Ye are bought with a price; therefore glorify God in your body. 1 Corinthians 6:20.

Moral action and right living can only be assured on the basis of right thinking. If our principles are right, our action will be sure and our life will be steady. Fundamental in our consideration of temperate living is a right understanding of life itself. Where did we come from? Whom do we resemble? What are the ruling forces in life? To whom do we belong? If he gets these matters straight, any honest man will come out right in his life decisions.

I. Man Was Created in the Image of God (Gen. 1:27-31).

"God created man"—so says Scripture, and all the forces of infidelity and unbelief have not been able to break down that simple statement. The creation story of Genesis stands and will stand. Let no critic of God's Word, no spinner of human philosophies, however plausible, take that assurance from you.

The important point for our lesson is the fact that God created man in His own image; in other words, made him an intelligent, moral and spiritual being. It takes a very glib person indeed to believe the theory (which, by the way, has never been proved) that man has evolved from some elementary substance by way of the animal into his present high estate. Man came from the hand of God ready to take dominion over the earth (vv. 23-30), able to name all the animals (Gen. 2:19, 20), and above all, capable of fellowship with God. Little wonder that God declared His creation with man as its crown to be "very good" (1:31).

Remember that you are God's creation and that you bear His likeness and you will have a high regard for your life. You will guard it, develop it, and above all you will commit it in glad surrender to God through Jesus Christ.

II. The Believer Is Indwelt by the Holy Spirit (1 Cor. 6:19, 20).

Redemption at the great price of Jesus' blood not only makes the believer belong to God (v. 20), but also makes his body the temple of the Holy Spirit. When the child of God grasps that truth, his attitude toward his body and toward his life which it bears is revolutionized. Since the third person of the blessed Trinity dwells in me, I will not abuse, neglect, or misuse my body. I will not take it to places where the indwelling Spirit would not go. I will not use it or any of its members to do anything which does not honor God. On the other hand, I will yield it without delay and without reservation to the Holy Spirit and count on Him to empower and use it for God's glory.

The writer wishes to bear testimony that when this truth laid hold of him, even years after he was converted, it changed his whole life. It can do the same for every Christian who reads these lines. And what about the unbeliever? He can accept Christ right now and at once the Holy Spirit will indwell him too. Why not?

III. The Believer Should Live a Separated Life (1 Cor. 6:16-17).

We have fallen upon evil days when it seems to be assumed by Christian people that only certain individuals in the Church are called to a life of separation from worldliness. Men seem to say, "The preacher? Of course! The deacon? Oh, yes! The elders? Yes! The trustees? Well, not necessarily. Church members? Well, some do and some don't." It is felt that it is just a matter of choice or of disposition, and that the failure to live such a separated life is really no reflection on one's spirituality.

That erroneous view must have come directly from the devil himself. Christian man or woman, will you listen to Satan or to God's Word? Read again 11 Corinthians 6:16, 17. Note the blessed promise in verse 18, and then heed the admonition in 7:1, "Dearly beloved, let us cleanse ourselves from all filthiness of the flesh and spirit, perfecting holiness in the fear of God." As Christians, our response to such an admonition should be immediate and complete.

The command and the invitation are to you, Christian friend. If you will respond, there will be a revival in your own heart, and if all those who read these lines will respond to God's invitation and admonition, there will be a revival in thousands of churches all over America this week. Why not?

Friends

You cannot keep your friends unless you learn to keep your temper. And if you wish others to enjoy your company you must see that you are a cheerful companion.

Information Bureau for Truck Operators Formed

The office of District No. 2, Division of Motor Carriers, comprising Lake, McHenry, Boone, DuPage and Kane counties, has been opened in the building of State Police headquarters at Dundee and Congdon avenue in Elgin, Ill. The men placed in charge are J. C. Weiland, of Aurora; Jack B. Ewing and Joseph L. Mull, of Waukegan, and Thomas H. Dwyer of Joliet.

Information and assistance in preparing application blanks, desired by all those owning and operating trucks on the highways of the State to comply with the requirements of the Illinois Truck act, approved in July, 1939, are now available at this office.

As rapidly as possible, meetings of truck operators will be arranged at convenient points in these counties, where explanations will be made and forms distributed by one, or other, or these men.

All motor carriers are required to make a choice of their classification, in conformity with their line of operations, which they desire to carry on. By far the larger number of carriers will qualify under a few classes, which can be easily determined by conference with the personnel at the office, or elsewhere in the district.

It is particularly desired that truck operators know that there will be no charge whatever made by the district office for information, forms, or other service to them. Inquiries by mail may be addressed to the district office at the address above. Telephone No. Elgin 7026, has been installed.

Joseph L. Mull, registrar, will be at the Lake county courthouse beginning this week. Motor carriers are invited to consult him, he announces.

Deaf-Mute Airplane Pilot Visits Antioch

Antioch was host to an unusual visitor last week when Ralph K. Bradford, 38, deaf mute pilot who is making a 100,000 mile journey all over the world to gain material for a book he plans to publish, made a short stay in the village.

"My travels have carried me into many nations," Bradford stated. "I have worked as a deck hand on ships to Cuba, Hawaii, Alaska, France, England, Germany, the Panama Canal zone, and, besides 28 cross-country jaunts, I have visited Mexico and Canada." Bradford is one of the few deaf-mutes who have obtained pilot's licenses.

Antioch is the 4,906th city he has visited. He came upstate in 9 and 20-below zero weather from Danville, Ill., after spending the holidays at his home in Indianapolis. From here he planned to go on to Elgin, Woodstock, Rockford and then into Wisconsin. His airplane, a small Aeronca cub ship with a 90 horsepower engine, unsuited to thin winter air, is being stored at Bendix Field airport, South Bend, Ind., until spring. He plans to resume his travels by air in March or April.

Last year, Bradford stated, he made 1,900 miles by air over Illinois, Wisconsin, Indiana and Minnesota, from April to November.

Memories of the old parlor organ and upright piano are evoked by this old Sheet music 25c per copy—"Mid the Green Fields of Virginia," "The Girl I Loved in Sunny Tennessee," "She Was Bred in Old Kentucky," "Moth and the Flame," "Just Tell Her That I Loved Her, Too."—J. C. James, Jr. Everything in Furniture. News item from historic Harper's Ferry in the said 1900's—A Harper's Ferry girl was unable to resist the temptation to tickle the bald head of a man who sat in front of her in the theatre, and was ejected by a police man.

Before the wild west became tame—An exciting incident occurred on the east bound Baltimore and Ohio Southwestern fast mail near Carlyle. A cowboy enroute from Texas to New York city engaged in a game of cards with two strangers and lost \$200. He detected the two men manipulating the cards, and producing a pair of revolvers demanded that his money be returned. It was surrendered.

All private taps along the line of the Waukegan pipe line have been turned off owing to a number of leaks along the line and the demand for water in Chicago. Those who have heretofore in this city and at other places enjoyed the privilege of having Waukegan water on tap in their homes and places of business will henceforth have to content themselves with ordinary well water.

The matter of raising funds to build an addition to the Lake county courthouse is to be brought up at the next meeting of the board of supervisors. Miss Grace Gullidge became the wife of William Griffin on Wednesday morning of this week in St. Joseph's Catholic church of Waukegan. History repeats itself.

London, Jan. 28—At a special meeting Sunday the representatives of the Balkan states at the peace conference decided that negotiations looking to a settlement of the Turko-Bulgarian

war, which have been pursuing their desultory way toward final disagreement for more than a month, should be broken off at once. This decision means a resumption of the war. Adding to the general terror, a heavy earthquake shook the Turkish capital.

When President Taft inspected the great Culebra cut of the Panama canal the other day, he was informed that six seventh-of the excavating work there has been completed. F. H. Just, former editor of the Waukegan Sun, is erecting two garages, one at Libertyville and one at Half Day, and others at various places in the county.

Shipwrecks Missing

New Zealand has a shipwrecks society and no shipwrecks. It was disclosed by the Shipwrecks Relief society that money is accumulating in the bank for want of disaster. The society obtains its finances from the shipping companies and the harbor boards of this country, all of which make an annual contribution. Year by year the funds grow larger. Now they stand at \$80,000 and are safely invested. This has resulted in the society now receiving more than it spends. The position is regarded with satisfaction by local governments, it seems. Mayor Arthur H. Allen of Dunedin has said: "It is gratifying to know this money has been invested in gilt edged securities."

Britain Loses World Sympathy Through Harsh War Measures; U. S., Japan Protest Sea Action

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.)
Released by Western Newspaper Union

LINLITHGOW CRAIGIE LATHIAN
There is trouble in the Lowlands and Rumania, too.

GREAT BRITAIN: U. S. Trouble

IF U. S. public opinion once favored the British against Germany, it had shifted by late January until most Americans looked with equal disdain on both sides. Reason: British interference with American shipping, seizure of mail and refusal to recognize the 300-mile neutral zone thrown around the Western hemisphere. To make it worse, all protests by Secretary of State Cordell Hull had been rejected peremptorily, until finally Mr. Hull slapped back with an *aide memoire*. Its gist: That U. S. vessels were being held up by the contraband control three times as long as Italian ships, therefore the U. S. could charge discrimination. There was every sign that this protest, like others, would be rejected. In Washington British Ambassador Lord Lathian saw unhappy times ahead.

Indian Trouble

MOHANDAS K. GANDHI'S independence demands for India broke into print when Britain began demanding war assistance from the empire. Lord Linlithgow, viceroy, thought after the war would be time enough to talk about Indian independence. This provoked a storm of protest, but Gandhi cautiously urged a non-violence campaign. Lord Linlithgow, relieved, was willing to discuss terms. But he was still playing with dynamite.

Japanese Trouble

ALREADY irked because Britain has been friendly with China's "rebel" Gen. Chiang Kai-shek, Japan's ire was heightened when a British warship stopped a Japanese passenger vessel in the Pacific, removing 21 German merchant sailors being returned to the Reich via Russia. Next day Tokyo gave British Am-

bassador Sir Robert L. Craigie a note demanding amends, calling the incident an "unfriendly act" and warning that retaliation would aggravate Japan's anti-British sentiment. Next day, when a British vessel halted Japan's *Taiwan Maru*, Ambassador Craigie found thousands of Japs milling around his embassy, while the press bleated against his country.

Lowland Trouble

WHEN Winston Churchill made a speech demanding that Netherlands and Belgium join the allies in fighting Germany, the press and government of these countries shouted angrily. To placate them without losing Britain's point, Prime Minister Neville Chamberlain next spoke, saying Britain was ready to help Belgium, but would reserve the right to decide when help was needed. Far from placating the neutrals, this speech only irritated them more. In The Netherlands all parties joined in telling Britain to keep quiet. In Belgium it was loudly proclaimed that the government can decide for itself when and if it needs help.

Rumanian Trouble

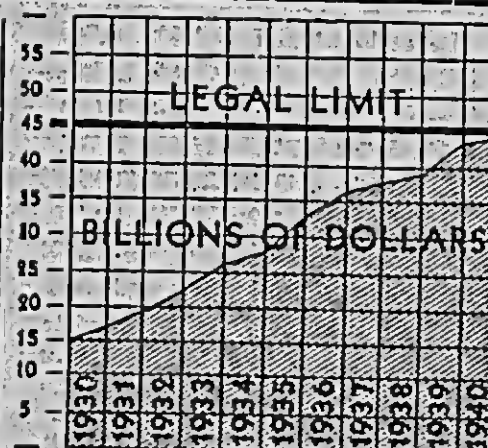

KING CAROL of Rumania has remained cautiously neutral despite British wooing. But in mid-January, when German troops were reported occupying the southern part of Russian Poland the British struck again, confident Carol would accept their aid gratefully. Instead they got the shock of their lives: Pressed by Germany to fulfill oil contracts, Rumania clung to neutrality and barked at British-French oil firms operating there. She insisted they provide their share of petroleum to help Rumania fulfill her contracts with Germany, thus providing oil to run Nazi planes to bomb English-French territory!

CONGRESS: Yes, but—

"Do I think the budget should be balanced? Yes. Do I think expenditures should be cut down? Yes. Do I think taxes should be increased? Yes. But if you say, 'Morgenthau, what kind of taxes should there be?' I cannot answer that because I do not know."

This apparently frank recitation from the secretary of the treasury was no more than he had promised several months earlier, yet it made big headlines. On budget-balancing and decreased expenditures he probably was more outspoken than the President, but not on new taxes. Never has any administration spokesman suggested what kind of levies congress should enact this session, and Henry Morgenthau's statement before the house appropriations committee failed to clarify matters.

Biggest news was Mr. Morgenthau's contention that the federal debt limit should be hiked five billion dollars above the present \$45,000,000,000 mark with which it is now flirting dangerously (see graph). He remarked that there was "no particular danger involved" in this act, but his audience apparently thought otherwise. Trimming desperately, congress lopped \$11,491,000 from the treasury-postoffice supply bill, bringing to \$120,143,300 the re-

ductions from administration estimates already in the mill. With enough such reductions congress hopes to avoid both new taxes and a boost in the debt limit.

Also in congress: To aid Finland without taking responsibility, the senate banking and currency committee, rigged up a "finesse formula" to increase the Export-Import bank's revolving fund by \$100,000,000. Still to be adopted by congress, the measure would let Jesse Jones give Finland an extra \$20,000,000 for non-military purchases. However, since only a third of the present \$10,000,000 loan has been used, Banker Jones doubted whether Finland would be interested. Reason: The Finns want munitions, not food and clothing.

In the house ways and means committee, pros and cons continued fighting over the reciprocal trade act, which expires June 1. A breach in agricultural opinion was evidenced when Farm Bureau President Edward O'Neal testified for the trade program while National Grange Master L. J. Taber spoke against it.

The house voted Rep. Martin Dies of Texas \$75,000 for his committee investigating un-Americanism.

North Dakota's G. O. P. Sen. Gerald P. Nye was named to the senate foreign relations committee to replace the late Senator William Borah of Idaho, whose remains were escorted back home to Boise by 10 senators following state rites in Washington.

As U. S.-Canadian conferences on the proposed St. Lawrence seaway were adjourned, congressmen from interested states (like Ohio, New York, Minnesota, Michigan and Wisconsin) began stirring up interest for an appropriation to build the deep sea channel.

POLITICS:

Break

"I am convinced that, with the conditions now confronting the nation and dissatisfaction now permeating the minds of the people, his candidacy would result in ignominious defeat."

Thus, before his United Mine Workers convention at Columbus, did C. I. O. President John L. Lewis score Franklin Roosevelt. Since Mr. Lewis had already blasted at Candidates Garner and McNutt, this latest attack only heightened suspicions that C. I. O. will favor the Democratic candidacy of Montana's Sen. Burton K. Wheeler.

Next day he explained his speech: "I intended (it) to be a distinct jar to professional politicians in the Democratic and Republican parties. I intended it to serve notice that labor was not to be taken for granted." But though John Lewis thought the New Deal had broken faith with labor, his mine workers did not necessarily agree. Introduced at the convention were at least 45 resolutions urging a third term for the President. Observers wondered whether this indicated a coming break in the strangle hold Mr. Lewis has held over his unionists.

JAPAN:

Treaty Lapses

In a single week the Tokyo government found its relations with two major nations approaching the crisis point. The English were persona non grata for having searched Japanese ships (see *GREAT BRITAIN*). The Americans were regarded disdainfully because abrogation of the 1911 trade pact went into effect, placing commercial relations between the two nations on a day-to-day basis.

Pence talks between U. S. Ambassador Joseph Drew and the Japanese foreign office were ended abruptly while Tokyo sat on its hands, hoping for the best. Obviously there was no chance for a new treaty in the near future, because state department had Japan right where it wanted her. If the present reprimand proved insufficient to make Nippon quit interfering with U. S. rights in the Orient, there still remained the highly potent embargo weapon.

Although the senate foreign relations committee indicated there was little chance for an embargo (which would hamstring Japan's war in China), there was plenty of pressure forthcoming from U. S. church groups. Why they demanded righteously, should American scrap iron be used to kill Chinese?

THE WARS:

Russo-Finnish

Helsinki claimed 20,000 Soviet troops fell when the Finns repulsed Russia's strongest invasion of the war northeast of Lake Ladoga. Estimated Red casualties to date: 100,000. While foreign legionnaires swarmed into Finland from Scandinavia, the Baltic states, Hungary, the U. S. and elsewhere, the defenders still had no adequate defense against Soviet bombers, who enjoyed a field day strafing civilians in small mid-Finland towns.

Allied-German

Only four days after Britain's destroyer *Grenville* was torpedoed with a loss of 81 men, the destroyer *Exmouth* went down in the North sea carrying 175 crewmen to the bottom. It was her twenty-third acknowledged naval loss since the war began five months ago. On the western front, meanwhile, all was peaceful.

MISCELLANY:

Protest

In Rome the Fascist press complained that the liner *Orazio*, which burned at sea, might have reached Barcelona safely had it not been stopped by a French warship.

At Berlin, under Adolf Hitler's direction, the pocket battleship *Deutschland* was renamed *Luitpold* after slipping home through the allied blockade. Its old name will go to one of Germany's new 35,000-ton battleships.

The Observer

Antioch is becoming what you might call "Red Cross conscious," what with the drive that is one now for the raising of funds for a rescue truck, and one thing and another. A Red Cross first aid man's heart really is in his work, we learn from reports of a little fire up Kenosha way, where an audience of 3,000 passer-byers watched a fire in the Parmentier apartment building that ruined a lot of furniture and almost asphyxiated half a dozen firemen last Thursday night. Lieutenant Arthur LaCrosse of the fire department, who is well known in Antioch through visits of the Kenosha rescue squad here in response to accident calls, was one of those who were overcome by refrigerator fumes and smoke. As he was being carried out on a stretcher, it took two cops to keep him from struggling to his feet and going back after the others. "Get those men out of there!" was his command as he was carted off, semi-conscious, to the hospital. LaCrosse, from whom the Antioch first aid men received their training, was recently awarded a gold medal by the Red Cross for his services. This little incident helps to illustrate why.

There's a rumor going on that a modern 60-room hotel is going to be built in Antioch. "Have you heard about it?" one enthusiast enthused Monday a. m. in the Antioch News office. "I heard about it 10 years ago," yawned a blasé citizen, "what I want to know is whether they're really going to do it." A hard man to convince.

Heard of a man the other day who bought a farm to raise hogs and paid for the farm with the money the government paid him for not raising hogs.

S. B. Nelson accumulated a useful fund of political information on his recent trip to the south, and brought it back with him:

- SOCIALISM:** You have two cows. You give your neighbor one of them.
- NAZISM:** You have two cows. You give both to the Government.
- FASCISM:** You have two cows. You keep the cows, give the Government the milk. The Government sells part of the milk back to you.
- COMMUNISM:** You have two cows. The Government shoots you and takes both cows.
- NEW DEAL:** You have two cows. The Government shoots one cow, milks the other one and pours the milk down the sewer.
- CAPITALISM:** You have two cows. You sell one cow and buy a bull.
- BOSSISM:** You have two cows.

The gangsters steal both—and political machine leaders peddle the bull.

One thing that always surprises us is the number of people around Antioch who have beautiful snow-white hair. Either it's a place where folks can grow old gracefully—or else the rapid social pace ages 'em before their time. (And it's awe-inspiring how party-giving a town Antioch can be—and how many lodges and clubs to the square inch there are.)

We were in MarieAnne's the other day and heard how a little girl had broken a window pane in a next-door neighbor's basement. The little girl was wishing said neighbor would hurry up and get home from an out-of-town visit on account of she (the little girl) thought she'd feel better if she knew what her punishment would be.

The other day we were sitting and staring at a map, and noticing how many odd names there were for places. There were Des Moines ("Of the Monks"); Kalamazoo (you try and tell us what that means); and Kokuk (ditto); Baton Rouge ("Red Stick"); Los Angeles ("The Angels"); Philadelphia, Pennsylvania, (City of Brotherly Love); in "Penn's Green Woods") and . . . oh, well, go get yourself a map and look at some more of them. You'll find Medicine Hat up in Canada, and Watersmeet over Michigan (we think it was Mich. we noticed it in—or was it Iowa?)—and scores of others, all very edifying. Up in Wisconsin they once had a contest to figure out which town had the prettiest name. They finally settled on "Glenbeulah"; with places like Milladore, Lonira, Wild Rose, Coria, Odanah and Eau Claire as runners-up. We herby respectfully suggest that anyone with any nominations for Illinois send 'em in and we'll think about printing 'em . . . maybe.

Ho, hum. Another cold wave is about due to slap us in the puss. It's getting so when the thermometer gets up to about 10 below zero, Antioch folks start going around saying, "My, have you noticed what lovely warm weather we're having lately?" But the kids are having fun, and we've even noticed some of the bigger "kids" sneaking out with their sleds and toboggans on an evening.

How the wind is blowing . . .

AGRICULTURE — Mortgage-debt payments of 75,000 farmers holding land-bank commissioner loans will be eased by a reamortization plan extending payments over longer periods. Cause: Henry Wallace's new full control over the farm credit administration.

CANADA — Instituting an economic embargo, Canada now forbids export of wheat, scrap iron, and steel ingots to countries adjacent to Germany (except by license), thus removing the danger of trans-shipment to the Reich. One result: Cancellation of a 1,250,000-bushel wheat shipment to Russia.

FREEDOM — National Labor Relations board ruled that constitutionally guaranteed free speech is not an absolute right. Cause: Refusing Ford Motor company permission to distribute pamphlets criticizing NLRB and unions.

Rescue Truck...

(continued from page 1)
organized last August, was inspected Friday by Mrs. Frances M. Abshire, representing the midwestern branch of the American National Red Cross.

Mrs. Abshire was particularly interested in the new set of traction splints the squad has secured for use in cases where fractures have been suffered by accident victims, and which will permit them to be moved with a minimum of suffering or danger.

She also praised the completeness of the first aid kits carried by squad members, and the quality of the materials they contained.

Mrs. Abshire made her visit in company with Mayor Mancell Talcott of Waukegan, head of the Lake County Red Cross chapter. In a joint meeting with L. D. Powles, captain of the Antioch Rescue squad, Herman Holbek, lieutenant, and Mayor George L. Bartlett of Antioch, they discussed aims in the current Antioch and Waukegan campaigns for the purchase of trucks to be used for rescue squad work, and methods of co-operation between units in the western and eastern portions of the county.

Village to Co-operate
The Antioch village board will give all possible co-operation in the maintenance of such a truck, Mayor Bartlett stated.

The Antioch rescue squad is planning to add to its personnel as soon as more men can be trained, Powles and Holbek announced.

Herman Rosing, third member of the Antioch squad, and James Stearns, local fire chief and chairman of the rescue truck fund committee, were unable to be present because of business duties.

Japanese Synthetic Gas
Synthetic gasoline in Japan costs three times the market price of imported gasoline, says Industrial and Engineering Chemistry. The Japanese government subsidizes the synthetic product, the supply of which thus far does not exceed 10,000 gallons a month. Production is slated to be increased by 2,000 per cent within the next three years.

Number of Post Offices
The post office department says that there are 1,195 first-class post offices in the United States.

Jessie Simpson, beauty contest winner and photographers' model who lost her legs in a train accident in 1937, has a "hair-do" for the most important event of her life—her marriage to James Steward of Hackensack, N. J. Miss Simpson is proprietor of the Hackensack beauty shop.

Honeymoon Helper

Flooded with requests is Clinton Mezley Washburn of New York who offered two free weeks for honeymooners on his palm-covered island off the coast of Florida. Mezley admits a huge, unlooked-for response.

New Solicitor General of U. S. Sworn In

Francis X. Biddle, center, of Philadelphia, Pa., sworn in as solicitor general of the United States by Supreme Court Justice Felix Frankfurter, right. Attorney General Robert Jackson witnessed the ceremonies. Biddle succeeds Jackson, who was named to his present post following the appointment of former Attorney General Frank Murphy to the Supreme court.

'Abe Lincoln' and Wife Visit White House

A railroad accident didn't prevent Mr. and Mrs. Raymond Massey from reaching a dinner party given by President and Mrs. Roosevelt. Their train stalled en route to Washington from Chicago, the pair completed the trip by plane. Massey, an actor, has won fame through his portrayal of Abe Lincoln.

Service De Luxe by War Zone Waiters

Steel-hatted German soldiers, serving as waiters, make their cautious way through the woods near the front line "somewhere in Germany" carrying railons for the garrison of an advanced outpost. The man in the rear is a guard, whose duty it is to protect the food. There is probably hot soup or stew in the tureens on the back of the "waiters."

Brother of Soviet Landing Tactics

While his brother, Gen. G. M. Stern, leads Soviet army forces against Finland, Morris Stern, above, waits on customers in his modest Los Angeles grocery store. Morris Stern's sympathies are with Finland. A naturalized citizen, he stated: "I don't like it, why don't they let them alone."

Finland's Reindeer Play Grim Role in War

Usually cast in the role of aide to Santa Claus, the reindeer has proved his worth in the Finnish-Soviet war. Here a family of Finnish refugees uses a sled and the family reindeer to transport its belongings to a place of safety during one of the air raids staged by the invaders on Finnish towns and villages.
